Hot Stamping Machine:

sxae-01-----	2
Fully Automatic 1 Station Hot Stamping Machine For Side Wall	
sxae-01A-----	3
Fully Automatic 8 Stations Hot Stamping Machine For Side Wall	
sxae-01B-----	4
Fully Automatic 1 Station Hot Stamping Machine For Tube Shape	
sxae-02-----	5
Fully Automatic 8 Stations Hot Stamping Machine For Top	
sxae-01G-----	6
Hot Stamping Machine For Irregular Shape Cap	

Heat Transfer Machine:

sxae-202-----	7
Fully Automatic Heat Transfer Machine For Glass And Plastic Round Oval Bottle	

Pad Printing Machine:

sxae-408-----	8
Servo rotary 6 color Pad Printing Machine	

sxae-01

Fully Automatic 1 Station Hot Stamping Machine For Cap Side Wall Printing

it is widely used for round surface of plastic and metal subjects with hot stamping technology like liquor bottle cap, lippie, plastic tube etc.

Features:

Automatic organizing, feeding, loading and unloading.

Controlled by PLC and touch screen display

Cap counting system optional

Safety door/security system optional

Changeable tooling and parameters adjustment are easily for different items

Parameters:

印刷速度 Printing speed	3600 Pieces/hour
印刷尺寸 Printing size	直径 Lid Diameter Φ 15- Φ 34mm, 长 Length 25-60mm
空气压力 Compressed air pressure	6-8 Bar
机身尺寸 Machine dimension	L 2300*W 1400*H 2300mm
功率 Power	AC 380V, 3-Phase, 50Hz/60Hz, 2.2KW

sxae-01A

Fully Automatic 8 Stations Hot Stamping Machine For Cap Side Wall

it is widely used for round surface of plastic and metal subjects with hot stamping technology like liquor bottle cap, lippie, plastic tube etc

Features:

automatic organizing, feeding, loading, register, unloading.

Controlled by PLC and touch screen display

Temperature and pressure can be adjusted

Cap counting system optional

Safety door/security system optional

changeable tooling and parameters adjustment are easily for different items

Optional different processing such as heat transfer.

Parameters:

Printing speed	3600 Pieces/hour
Printing size	Lid Diameter $\Phi 15-\Phi 34\text{mm}$, 长 Length 25-60mm
Compressed air pressure	6-8 Bar
Machine dimension	L 2300*W 1400*H 2300mm
Power	AC 380V, 3-Phase, 50Hz/60Hz, 2.2KW

sxae-01B

Fully Automatic 1 Station Side Wall Hot Stamping Machine For Hollow Shape Bottle Lids

This hot stamping machine is widely used for round surface of hollow shape bottle lid.

Features:

automatic organizing, feeding, loading and unloading.

Controlled by PLC and touch screen display

Cap counting system optional

Safety door/security system optional

changeable tooling and parameters adjustment are easily for different items

Parameters:

印刷速度 Printing speed	3600 Pieces/hour
印刷尺寸 Printing size	瓶盖直径 Lid Diameter $\Phi 15-\Phi 34\text{mm}$, 长 Length 25-60mm
空气压力 Compressed air pressure	6-8 Bar
机身尺寸 Machine dimension	L 2300*W 1400*H 2300mm
功率 Power	AC 380V, 3-Phase, 50Hz/60Hz, 2.2KW

sxae-02

Fully Automatic 8 Station Hot Stamping Machine For Cap Top

This hot stamping machine is widely used on top of plastic or metal lids

Features:

automatic organizing, feeding, loading, register, unloading.

Controlled by PLC and touch screen display

Cap counting system optional

Safety door/security system optional

top and sides hot stamping together

changeable tooling and parameters adjustment are easily for different items

Parameters:

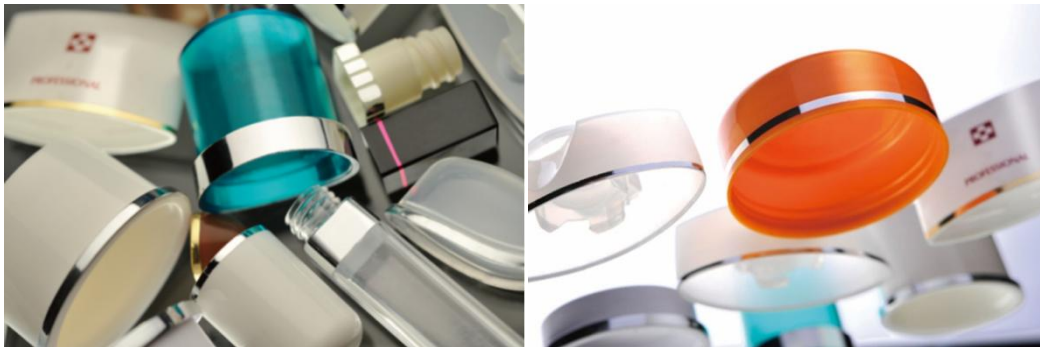

印刷速度 Printing speed	3600 Pieces/hour
印刷尺寸 Printing size	瓶盖直径 Lid Diameter $\Phi 15-\Phi 34\text{mm}$, 长 Length 25-60mm
空气压力 Compressed air pressure	6-8 Bar
机身尺寸 Machine dimension	L 2300*W 1400*H2300mm
功率 Power	AC 380V, 3-Phase, 50Hz/60Hz, 2.2KW

sxae-01G

Hot Stamping Machine For Irregular Shape Cap

This gold stamping press is applicable to stamp around whole circle on the irregular bottle caps.

1. Simple structure, easy operation.
2. The mobility is perfect.
3. No joints on hook face and corners.
4. Rate of finished products is perfect.
5. According to customers' special requirement to customized.

Parameters:

烫印直径 Stamping diameter	直径 $\phi 10$ - $\phi 100$ mm
烫印宽度 Stamping width	1 -20mm
烫印速度 Stamping speed	1200-3000 Pieces/hour
功率 Power	AC 110V/220V, single phase, 700W
压缩空气压力 Compressed air pressure	6-8 Bar
机身尺寸 Machine dimension	L 600*W 500*H 1150mm
加热方式 Heating method	红外陶瓷加热 Far infrared ceramic heating

sxae-202

Fully Automatic Heat Transfer Machine For Glass And Plastic Round Oval Bottle

It is widely used for cylindrical, oval, round, flat surface glass and plastic bottles with heat transfer technology.

Features:

1. 360° rotation for round bottles and 180° two sides heat transfer on **oval and square bottles**.
2. using HMI is more intelligent and productive.

Parameters:

印刷速度 Printing speed	1800-3000 Pieces/hour (depending on article shape, size and print image, infinitely adjustable)
印刷面积 Printing area	直径 Φ 30-120mm, 高 Height 25-280mm
压缩空气压力 Compressed air pressure	6-8 Bar
机身尺寸 Machine dimension	L 2000*W 1000*H 2400mm
功率 Power	AC 380V, 3-Phase, 50Hz/60Hz, 7Kw

sxae-408:

Servo rotary 6 color Pad Printing Machine

Applications:

1. This model is fully servo driven rotary type 6 color Pad Printing Machine, widely used to print images and words on red wine bottle, alcohol bottle, glass cup, stainless cup etc, automatically print 6 color at one time.
2. It has 12 position with jigs, rotary turntable, fast printing speed, print any position.
3. PLC control, huge touch screen HMI (human-machine interface), automatic vertical loading and unloading system, no product no print, hot air curing, any area rotary print, pad print.
4. Servo motor control for rotary jigs, which is able to print any position.

Parameters:

印刷速度 Printing speed	2100 - 2400 PCS/Hr Depending on article shape, size and print image, infinitely adjustable
印刷工件尺寸 Max Size of Article 1	直径 Ø20-100mm, 高 Height 80-280mm
印刷方瓶最大宽度 Width of square bottle max Article 2	100mm
压缩空气压力 Compressed air pressure	5-7 bar
机身尺寸 Machine dimension	2600*4350*H2200mm
功率 Power	AC 380V, 3-phase, 50Hz/60Hz, 19Kw
